## MINSTRELS, ALI REAL NEGROES, GIVE GOOD ENTERTAINMENT

Though the audience of white people was small, which was made up for somewhat in the large attendance of hiscks, the "Nashville Kudents" gave a good entertainment at the Totas Grand Sunday night. Although there are not more than eight or 10 people in the entire company, everybody is a star and it was one of the best antertainments—considered solely from a laugh stand-polot—that has been here in a long time. The comedians cracked good jokes and 'put them over' go well that at least one man—white—sh the audience had hysterics. There were also some good singers, clever dancers and excellent musicians. A couple of the black boys played a number of musical instruments, including a sylophone, and they got out all the muisic there was in everything they played. A loop for large the black by so played a number of musical instruments, including a sylophone, and they got out all the muisic there was anything on the American stage beaten, while so black. If the performance has anything on the American stage beaten, while so black. If the performance were here for ionight, it is safe to say they would pack the liquid.

Recorder Declares Women Vagrants.

The women, it is said at the police station, were arrested in accordance with the ruling of recorder Thomas Saturday afternoon, that imamuch as there was no "restricted district," owing to the fact that the city has not the right to designate one, the women were vagrants under the law. Not wishing to impose a bardeship upon them, indge Thomas gave them a nominal line of \$10 each, but stated that if they were arraigned again on the same charge, he would be under the necessity of fining them more heavily, as under they law they were vagrants and liable to a fine.
